Audio, No Video:

- Todd, EVP of International Student Leadership Coalition
  - I’m here to share my feelings about how students don't know about USAC.
  - The election endorsement process, it is bureaucratic and difficult.
  - The endorsements orientation itself was posted on Facebook the day the orientation was supposed to happen. So if I didn't know anyone in USAC, I wouldn't have attended the orientation itself.
  - There is a lot of misinformation; we were told that we submitted our questions after the deadline and so they were rejected. The deadline on the application is April 14th, other sources said April 13th. The e-board said that they had the right deadline on other platforms but not on the submission form.
  - With regards to the endorsements hearing tomorrow. I received an email with updates, but there is a change to the endorsements hearing which is not in the email. I am expressing my concern about how information has been spreading.

Audio and Video: None

- Mokhtarzadeh ends public comment at 7:07 PM.
III. Approval of the Agenda*

- Mokhtarzadeh Adds a discussion in executive session under new business to discuss a personnel matter and that we allow Dr. Geller, Jessica and James to remain on the table for that conversation.

- Mokhtarzadeh: let’s put that before the executive session.
- Pan: strike BAG
- Flournoy-Hooker: strike ARC
- Reports that have been struck for tonight: IVP, AAC, CEC.
- Funding allocations struck due to absence of officer member: SWPF, ASRF, TGMF
- Dr. Geller: I heard from divya today. He is dealing with family matters. He has travel allocations. He said he will try to get them to someone during the meeting so that they can respond. He said he will try to get to a computer asap.
- Mokhtarzadeh: so we unstrike the travel grant mini fund
- Boudaie moves to approve the agenda as amended, Saidian seconds.
- 9-0-0 vote, the agenda is approved as amended.

1. Thank you to everyone who stopped by our Hill Voter Registration kick-off event! We had over 200 students attend the GOTV program. VII. New Business

1. CSC Funding Guideline Amendments*  Hardwicke
   - Hardwicke: Background story is that last year's commissioner passed guidelines for a funding body but never started the funding body. This year we have been working with people on campus to put together a more comprehensive funding body.
   - Hardwicke: Our goal is to have a pilot run before the next commissioner comes in.
   - Hardwicke: It's a really long guidelines document.
   - Hardwicke: It's a supplemental fund so we are undoing what you can't get funded elsewhere.
   - Hardwicke: One is for service related conferences for individual
   - Hardwicke: Others will be for service related organizations as a whole.
   - Hardwicke: Funding for volunteer appreciation and development events.
   - Hardwicke: It will fund up to $1500 and it will have $25,000 for allocation every quarter.
   - Mokhtarzadeh: The funding comes from #uclaxxx and you've ensured that the language is consistent with the bylaws (CONFIRM LINGO).
   - Hardwicke: Dr. Geller, I talked to you about putting a line so that in case there is no quorum, the commissier can approve the funding allocation. Could you look at it; it's on the second last page, “In the events that.usac is unable...up to 500 in funding...for the following week”
   - Geller: I would add the word “discretionary” “for events happening before the following council meeting”.
   - Stokes moves to adopt the CSC Funding Guideline Amendments, Flournoy-Hooker seconds.
   - 9-0-0 vote, this motion passes and the amendments have been approved.

2. Spring 2018 USAC Election Ballot*  Price
   - Price: So this is the ballot. 39 candidates, 1 constitutional amendment. Presented in eh order as laid out in the constitution.
   - Geller: Are the names going to appear in this order on the ballot?
     - Price: UCLA IT told me that last time the e-board paid a one time fee to randomize the ballot for every student.
   - He: Does the constitutional amendment shows up at the top or bottom?
     - Price: Bottom.
   - Hajee: on MyUCLA when people vote, will the ballot have names and candidate statements or will they have to click on a separate link to see the statements?
     - Price: You'll have to click.
- Mokhtarzadeh: have you thought about how the MFA will affect students’ ability to vote.
  - Price: once people get used to it, I think it will be fine. Sabrina is putting together a plan for
    physical polling places with iPads. We have ads going up on the hill. We will do our best
- Hajee: one recommendation for MFA is. If students don’t have access to phones at a time, there are tokens
  they can get at Murphy Hall for authentication. That can be something you are sharing.
- Stokes moves to approve the Spring 2018 USAC Election Ballot. Hardwicke seconds.
- Diaz: because my name is on there, should I abstain?
- Mokhtarzadeh: it’s up to you.
- 9-0-0 vote, this motion passes and the 2018 election ballot has been approved.

3. Discussion On Election Board Operation Logistics

- Hajee: in light of the public comment that was made today, I have some personal concerns. A lot of
candidates and their campaign teams have been having issues about getting info and adjusting to last
minute changes. For example, the changes to the expense form guidelines
- So the info is not being disseminated in an accessible way. People are having issues accessing and keeping
  up. We don’t want to chaperone election board. Is there a solution?
  - Price: the best practices that we’ve been following is that our External Relations Director, Isabelle
    Bock, is the first line of communication. When we make a change, she immediately emails the
    candidates.
  - Price: With regard to the public comment made earlier. the April 13th deadline was approved, was
    on our calendar since March and was advertised on social media. we emailed clubs beforehand.
  - Hajee: But on the forms itself the date was different?
    - Price: yes. my Endorsements Director changed that a few days prior to the deadline. It still said
      Friday, just the date was messed up. I appreciate the concern and we don’t want to make mistakes.
    - Price: we are all working hard, we are students and we are trying to juggle 39 candidates. We will
      make sure our job is done better than it was in this instance.
  - Hajee: it would be nice to have a more concrete set of steps in place for what you are going to do in
    situations. With all the future stuff that’s due, what is your process for disseminating that info so that it gets
to the people that it needs to.
    - Price: Isabelle Bock has been working on press releases. She drafted it, I looked it over and
      approved. We will get as many eyes on it as we can before we want it to Dickson. Isabelle will
      send it to candidates and Dickson will put it on social media. If you can think of other ideas for
      adding additional safeguard, I will be happy to incorporate them.
    - Mehr: we make people sign forms. So try to get them to confirm that they understood the new
      communication is something we do. We can’t guarantee 100% success that everyone will respond
to us but we try our best.
  - He: there’s also the change that if they heard about something but the form has different deadline, it’s
    confusing. I personally emailed you guys that a constitutional amendment was not put on the form, and
    after my email you added it.
    - Price: Sabrina has been doing a great job with troubleshooting. I totally understand that you are
      worried and all of us are under stress. We think our job is to make campaigning and participating
      as stress-free as possible. Especially in regard to ISLC’s situation, I responded to their email and
      said that it’s a tough situation for us but these are the 3 ways for you to get around it. We’ve been
      working on this based on feedback from last year that we reach out to candidates 48 hrs prior for
      outside endorsement events
    - Mehr: we are constantly in touch with candidates and campaign managers and student groups. The
      problems are little generally speaking. We are keeping everything on a case by case basis.
- Mokhtarzadeh: maybe if you’re sending any emails, you can CC council.
- Price: I'll communicate that you the executive committee.
- Mokhtarzadeh: can you explain to us the reason behind making the Endorsements Hearing event closed rather than open?
  - Price: 39 candidates, 27 clubs asking questions. The first Meet The Candidates event will be open to public but in order to hold both events ads make sure that we keep time, Sabrina consulted with Mehr and I and we decided that it'll be best to close it and livestream it. We need to keep the endorsements hearing under 4 hours.
- Mokhtarzadeh: what are you doing to ensure that debates can be open to all students?
  - Price: debates are still being held at DeNeve Auditorium. We think that DeNeve will be able to house a lot of students. We are working on getting some part of the Bruin Media team to livestream. Isabelle is working on trying to secure overflow room where we can have folks view the livestream.
- Mokhtarzadeh: you could project it outside the wall outside Northwest Auditorium.
  - Price: tomorrow night, we are doing facebook live. And hte same thing at the debates too.
- Hajee: I don't think facebook live will be best. You'll have to find something more secure.
- Saidian: I think the auditorium has Bruincast.
- Hajee: in the future if you need stuff from candidates, it shouldn't be posted on social media, there need to be emails sent to individuals.
- Mokhtarzadeh: have you calculated how long you estimate endorsements to go on for.
  - Price: at the most, 4 hrs. So by 11 pm. That's why we are having a second meet the candidates event. 27 clubs asked questions and we have 39 candidates so it's going to be tough. But Kris Kaupalolo told me that before this was regulated, every club could participate and it went on for 3 days and till 1am.
- Hajee: how do you plan to improve logistically speaking from this day forward?
  - Price: We will be doing the following:
    - Cc-ing council in emails.
    - Email communication
    - Better coordination
- Diaz: I have the TGMF funding allocations now so we can do that whenever we get a chance.

4. Executive Session to Discuss a Personnel Matter

- Executive session began shortly after 7:30 PM.
- Mokhtarzadeh: we move out of Executive Session at 8:01 PM.
- There were no votes taken during the session.
- We have 2 items left on the agenda but we don't have quorum for either.
- Mokhtarzadeh: Minutes approval tabled until next week.
- Mokhtarzadeh: for Travel Grant Mini Fund, can you see if any of them will be happening before next week?
- Diaz: Yes, some of them will be.
- Dr. Geller: Do you want to authorize him to use discretion?
- Stokes returns to the room. Quorum requirements met.
- Mokhtarzadeh: Nicole, do you mind forwarding the email to all of us?
- Diaz: If anything is before or on 4/17 then it’s not going to be approved. So I added and subtracted figures accordingly.
- Mokhtarzadeh: Is there any opposition?
- Mokhtarzadeh: Seeing none, this TGMF allocation is approved.
- 9 approved applications.
- Total approved: $4790.00
- Mokhtarzadeh: In the future, for those of you who have consent item forms, it would be good to send them out so everyone could see them for the sake of transparency.
